PROFESSIONAL SUMMARY

Fourth-year Computer Science student at De La Salle Lipa specializing in Data Engineering, Front-End Development, and Data Analytics. Experienced in building responsive web and mobile applications using React, Next.js, Node.js, Supabase, SQL, and Expo, with growing expertise in Python, Data Science, Machine Learning, and cloud computing (AWS). Seeking a part-time internship to apply technical skills, gain industry experience, and contribute to meaningful projects.

EDUCATION

De La Salle Lipa, Lipa City, Batangas | Bachelor of Science in Computer Science (In Progress, 4th Year)

- **Relevant Coursework:** Data Science, Artificial Intelligence, Object-Oriented Programming, Discrete Mathematics, Data Structures and Algorithms, Operating Systems
- **Thesis:** SafeSeat - A Hybrid Behavioral-Physiological Vehicle Seat System for 5-Seater Vehicles Integrating AI and Event-Based Computer Vision for Passenger Safety

TECHNICAL SKILLS

- **Frontend:** React, Vue, Astro, React Native (Expo), Next.js, TypeScript, Tailwind CSS, HTML, CSS, JavaScript
- **Backend & Database:** Node.js, Express, Supabase (Auth, Database, Storage), SQL, PostgreSQL basics, Firebase
- **Cloud:** Amazon Web Services (AWS), Cloud Computing
- **AI & Machine Learning:** OpenAI, Python, R
- **Tools:** Git, GitHub, Figma, Arduino IDE, EAS Build, VS Code, Vercel, Canva, NPM
- **Programming Languages:** JavaScript, TypeScript, Python, C++, PHP, R, SQL

PROJECTS

SafeSeat | Python, C++, TypeScript, Tailwind CSS, Supabase, React Native, Expo, GitHub | 2026-Present

- Developed an AI-powered IoT vehicle occupant monitoring system using multi-sensor fusion and machine learning to detect abnormal passenger conditions and deliver real-time safety alerts; deployed on Vercel.

SpeakUp | JavaScript, Supabase, CSS, HTML, React JS, Vite, GitHub | 2025-2026

- Built a full-stack web-based report management system enabling secure incident reporting, real-time tracking, and administrative case management using React and Supabase.

StylePick | TypeScript, Tailwind CSS, Supabase, React Native, Expo, GitHub | 2025-2026

- Created an e-commerce mobile store application allowing customers to buy and sell products through their mobile devices; deployed on Vercel.

CERTIFICATIONS & TRAINING

- **Google Career Certificates (Coursera):** Foundations of Project Management (2026); Project Initiation: Starting a Successful Project (2026)
- **DataCamp - AWS:** AWS Concepts; Understanding Cloud Computing; AWS Cloud Technology and Services Concepts (Sep 2026)
- **DataCamp - SQL:** Introduction to SQL (Sep 2026)
- **DataCamp - Python:** Introduction to Python for Developers, Introduction to Python, Intermediate Python, Introduction to Statistics in Python, Data Manipulation with pandas, Joining Data with pandas
- **DataCamp - R:** Introduction to R, Intermediate R, Introduction to the Tidyverse, Data Manipulation with dplyr
- **DataCamp - Git & GitHub:** Introduction to Git, Intermediate Git, Introduction to GitHub Concepts, Intermediate GitHub Concepts, GitHub Foundations
- **eGovPH Hackathon 2026, DICT Philippines:** Certificate of Appreciation for participation and contribution (Jul 2026)

SEMINARS & WORKSHOPS

- **Bridging Ethical Hacking and Data Analytics: Building Smarter and Safer Systems (2026)** - vulnerability assessment, penetration testing, anomaly detection, predictive analytics, and AI/ML for secure systems.
- **Innovative Research Horizons (2026)** - ethical hacking and data analytics fundamentals, including penetration testing, vulnerability assessment, and predictive analysis for cybersecurity.
